EXPRESS MAIL CERTIFICATE

"Express Mail" mailing label number : EL 983 775 315 US

Date of Deposit : September 21, 2005

Type of Documents : Information Disclosure Statement (2 pages, in duplicate);

Form PTO/SB/08A (Substitute PTO-1449) (8 pages) with references:
24 Foreign Documents;
130 Other Documents;

Return Postcard

Serial No. : 10/711,969

Filing Date: : October 15, 2004

I hereby certify that the documents identified above are being deposited with the United States Postal Service "Express Mail Post Office to Addressee" service under 37 C.F.R. 1.10 on the date indicated above and are addressed to the Commissioner for Patents, P. O. Box 1450, Alexandria, VA 22313-1450.

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants hereby voluntarily disclose one hundred fifty-four (154) references listed on the attached Form PTO/SB/O8 to the Commissioner for Patents. Copies of the foreign patents and literature references listed on Applicants' Form PTO-SB-08 are enclosed herewith. A copy of the International Search Report citing the references is also enclosed.

This Information Disclosure Statement is being submitted prior to the mailing of a first Office Action on the merits of the application. Accordingly, it is believed that no fees are due. However, should any fees be due, the Patent Office is hereby authorized to charge Deposit Account No. **09-0528**. A duplicate sheet is enclosed for this purpose.

Document F7 (WO 96/30372 A1) is published international application in the Japanese language, having no apparent English language equivalent. However, an English language abstract published with the international application appears to suggest that the document discusses diazabicyclo[3.3.1]nonane derivatives represented by formula disclosed therein, asserted to have a nicotinic cholinergic effect and a dopamine-releasing effect and to be usable as a remedy for dementia such as Alzheimer's disease, a drug for relieving memory disorders, a

remedy for central nerve degeneration diseases, and a drug for relieving cerebral function disorders.

Applicants further reserve the right to establish the patentability of the claimed invention over any of the listed information should they be applied as references, and/or to prove that some of the cited information may not be prior art, and/or to prove that some of the cited information may not be enabling for the teachings they purport to offer.

This statement should not be construed as a representation that a search has been made, or that the information cited herewith is material, or that there does not exist information more material to the examination of the present Application. The Examiner is specifically requested not to rely solely on the information submitted herein. On the contrary, the Examiner is requested to conduct an independent and thorough review of all available information, and to form independent opinions as to its significance.

It is respectfully requested that the Examiner initial and return copies of the enclosed PTO-SB-08 and to indicate in the official file wrapper of the above-identified patent application that each item of the cited information has been considered.

Respectfully submitted,

Date:

Sept 20, 2005

Carl B. Massey, Jr.
Attorney for Applicants
Registration No. 44,224

Examiner Signature			Date Considered

*EXAMINER: Initial if reference considered, whether or not citation is in conformance with MPEP 609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to applicant.¹ Applicant's unique citation designation number (optional). ²See Kinds Codes of USPTO Patent Documents at www.uspto.gov or MPEP 901.04. ³ Enter Office that issued the document, by the two-letter code (WIPO Standard ST.3). ⁴For Japanese patent documents, the indication of the year of the reign of the Emperor must precede the serial number of the patent document. ⁵Kind of document by the appropriate symbols as indicated on the document under WIPO Standard ST.16 if possible. ⁶Applicant is to place a check mark here if English language Translation is attached. This collection of information is required by 37 CFR 1.97 and 1.98. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 27 CFR 1.14. This collection is estimated to take 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. If you need assistance in completing the form, call 1-800-PTO-9199 (1-800-786-9199) and select option 2.
